Veterans Day - 2023

This November 11th we will honor and remember the many members of our military services. This honor should not be taken lightly because we owe many of these heroes for the freedom we enjoy to live the way we do in America. They will all tell you, "I was just doing my job." Thank you Veterans! The last page of this newsletter lists our ACCC veterans.

Another group that never gets enough recognition are the families that military members leave behind when deployed or taking other unaccompanied assignments to desolate places. The military spouse is left behind to run the household and raise the family in the military member's absence. A special thanks to this group of heroes. They too, are Veterans!

Right behind this patriotic holiday we follow up with a day of Thanksgiving for family and of course the freedom we have to enjoy such festivities. How many will be having a meal representing the first Thanksgiving: eel, ducks, venison, lobster, possibly wild turkey, and Indian corn made into cornbread.

Corvette related, I hope to see you at breakfast on November 4th, the Veterans Day cruise to King George on November 11th, and of course the general membership meeting on November 21st. Come out and cast your vote for a brand new Board of Directors. The new board will be installed at the Christmas Party on Dec 17th. Plenty of time to sign-up for this event.

Most Corvettes are Red!

Willing Warriors — Continuing Needs

How ACCC Members Can Help

As we all know, Willing Warriors in Haymarket, VA, is a great cause. We attend their Vettes for Vets Corvette Show every year. There is a way we can help them on a continuing basis. They have recurring needs for the following:

- **Cases of Bottled Water** to keep in the garage refrigerator for volunteers who are working and Warrior families when they play outside or go off-site.
- **Tall Kitchen Trash Bags**
- **Dawn Dish Soap**
- **Paper Towels**
- **Septic Safe Toilet Paper**
- **Gallon and Quart size freezer zip lock baggies**
- **Pledge**
- **Snack bars** such as Nature Valley Granola bars

If you bring any of the above items to any ACCC meeting, ACCC Associate member Mary Anne McGovern has volunteered to get them to Willing Warriors. Thank you Mary Anne.

Dear Friends ,

On behalf of the Thurman Brisben Center Board of Directors, our staff, and the women, children and men who find shelter here, please accept our sincere thanks for your donation of \$250.00 towards this year's Brisben Breakfast. Your generous commitment to the Brisben Center provides an essential hand up to those who are hurting and are working to become sustainably re-housed and improve their quality of life.

The Brisben Center is a full-service residential emergency homeless shelter serving the city of Fredericksburg and the surrounding counties of Caroline, King George, Spotsylvania, and Stafford. Since 1988, we have provided area residents with a safe, secure, nurturing place to live while they work to get back on their feet. On average, clients increase their income 96% in the time they are here.

With a minimum of government funding, our work is sustained by faith communities, businesses, foundations, civic organizations, and individuals for financial and volunteer support. For their many kindnesses, including your generous contribution, those we serve are truly blessed.

With deep gratitude,

N. David (Dave) Cooper

What Did You Do to Your Corvette?

Dave Jones — 2006 Coupe

Dave just acquired a 2006 coupe (see picture on the cover of this issue). The engine is 364ci/400hp (6.0L) with a 6-speed manual transmission. The exterior is Monterrey Red and it has a Cashmere interior. Mileage is 44K. It has an AM/FM/CD with navigation. Dual roof panels. And for sport, it has the Z51 performance package. Dave is selling his 2006 Collector Edition (see the for sale ad in this issue).

Pete Rutledge — 1954 Corvette

Well this month I needed a new battery for the '54, so I thought I would try a new fangled Optima 6 volt battery covered by a "Tar Topper Opt 6" (a plastic box intended to look like a vintage 6 volt battery), but both were too large to fit the battery tray, so I ended up with an Interstate 6 volt, which is somewhat vintage looking with 3 white battery caps. I also continued my work to fit the Plasticon hardtop on the car. I found that two metal covers over the soft top hinges had been missing from my car for who knows how many years; I found a pair on eBay and installed them. I now have all the latches and weatherstripping needed to finish the installation of the hardtop, except for paint and headliner. I may just re-prime the exterior for now, as I am planning to repaint the '54 in its original Pennant Blue, in which case the hard top will be painted that same color.

My Adventure at Ron Fellows

By Jack Whitis

Day one began early for a drive from downtown Vegas to the Ron Fellows Performance Driving School at Spring Mountain Motor Resort and Country Club in Pahrump, Nevada.

A delicious buffet breakfast in the clubhouse was first on the agenda; then on to the classroom at 8:00 AM.

Introduction of the instructors (JJ, Justin, Vinny, Rico, Tammy, Teddy, and Star); then an explanation of how the day would progress. We were divided into three groups for the first exercises, first the serpentine where we learned about turn-in and apexes. Three times thru this course, one time with the windshield completely covered so we had to use driver and passenger windows exclusively to negotiate the cones; braking exercise where we learned to fully utilize the capability of the C8s anti lock brake system; here we learned to max brake (pedal to the floor) and steer the car to avoid an object on a wet track; and then our first venture onto the road course where we did a practical application of what we learned on the serpentine, turn in and find/hit the apex.

Following a hearty lunch in the clubhouse, back to the classroom for more instruction and new exercises. Autocross practice, more road course time and additional classroom time.

Autocross practice took us thru the course behind the instructor to show the route thru the cones to the finish in a "box" designated by orange cones where we had to come to a complete stop in the box or face a 5 second penalty and 1 second penalty for each cone displaced along the course.

At the end of the day, I checked into the provided condo for the evening. The first night that I stayed in Vegas, I could have elected to stay at the lodge for an additional fee.

Day 2 began with buffet breakfast and then classroom at 8:00 AM.

Summarizing day 2 was more classroom time to learn about the electronics and other features of the car, then time on the wet skid pad where we did figure 8s with no traction control sliding and drifting the cars, sometimes doing unintentional 180s and maybe 270s with an instructor in the car with us who then engaged the weather mode to show us the car would not spin or skid in that mode. Comforting!!

On to the Autocross competition where we each got 3 attempts against the clock for bragging rights within our group.

2 more sessions on the road course, 3 laps each following the instructor around the course to perfect our technique of turn-in and apex along with proper braking prior to the turn-in. We were hitting triple digits on the road course so insurance required the students to be in helmets and HANS devices. I should mention that during the lead/follow sessions the instructor was talking to us from their car on CB radios. Let me count the times I heard "Jack you missed that apex again"!

My Adventure at Ron Fellows (cont'd)

The day was finalized with the top 3 Autocross times in each group being recognized, then presentation of the completion certificates.

I have to say that the money was a great investment, as I learned much about the car and its capabilities, making me much more confident.

Spouses are welcome at the owner's school. For only \$40 more, your spouse or significant other can attend and stay with you in the lodge and their meals are included along with hot laps with the instructors on the road course and transportation to viewing areas for photo opportunities. Clara elected to not attend the course this time.

I encourage anyone who wants to learn about their C8, or is thinking about buying a C8, or just wants to experience this, go! I don't think you will regret it.
